PROJECTS

C++ GAME TETRIS: HIT THE BEAT (ENHANCEMENT)

Far Eastern Polytechnic College

2022

- C++ game where falling blocks accelerate with the music's tempo, requiring quick reflexes and strategic thinking. The game integrates SDL2 for enhanced visual and audio feedback.

VISUAL BASIC, STUDENT PORTAL LAYOUT FOR FAR EASTERN POLYTECHNIC COLLEGE

Far Eastern Polytechnic College

2022

- Includes user login, registration, and database integration. It features a proposed website layout, ensuring efficient management of student data and enhancing the overall user experience.

LINUX SYSTEM ADMINISTRATION AND SERVER CREATION FOR FAR EASTERN POLYTECHNIC COLLEGE.

Far Eastern Polytechnic College

2023-2024

- Project involved in creating a server, establishing multiple users and groups, and setting up directories. Permissions were meticulously assigned to each group and user, ensuring secure and organized access.

EDUCATION

2021 - PRESENT (Graduating)

FAR EASTERN POLYTECHNIC COLLEGE

Bachelor of Science in Computer Science

2016 - 2018

CONGRESSIONAL INTEGRATED HIGH SCHOOL

Science, Technology, Engineering, and Mathematics
